	MSRE1218	3.7 x 5.5	Rectangular Shade Sail	1283.05

### Note:

1. These measurements are taken from the D ring at each corner, they do not include tensioners or fixings. These measurements are the size of the shade sail before it is stretched out or tensioned. For best results we recommend that a turnbuckle tensioner is used at every corner of the shade sail.
2. No hardware is included - add hardware from separate price list.
3. All prices are NZD and exclude GST and freight. These are subject to change without notification.
