

Riviera v4

New Zealand's finest cantilever umbrella

SHADE7
premium outdoor living

Experience world-class, resort
quality shade, under the finest
cantilever umbrella available.

This superior, stunning cantilever umbrella is the ultimate choice for outdoor living and entertaining in both residential and commercial environments. Style and performance engineering combine in the Riviera v4 to offer the best in elegance, strength and durability. It features beautiful anodised aluminium and marine-grade stainless steel components throughout. Combining flexible tilting adjustment and 360° rotation, the Riviera cantilever umbrella provides generous shade flexibility.

A legacy of innovation

The Riviera cantilever umbrella is designed and engineered by kiwis for New Zealand's harsh coastal environments and conditions. We began designing and manufacturing premium quality cantilever umbrellas in Auckland NZ in 1999 and over the last 25+ years we have continued to develop, design and innovate with the goal of creating NZ's best cantilever umbrella.

Riviera advantages

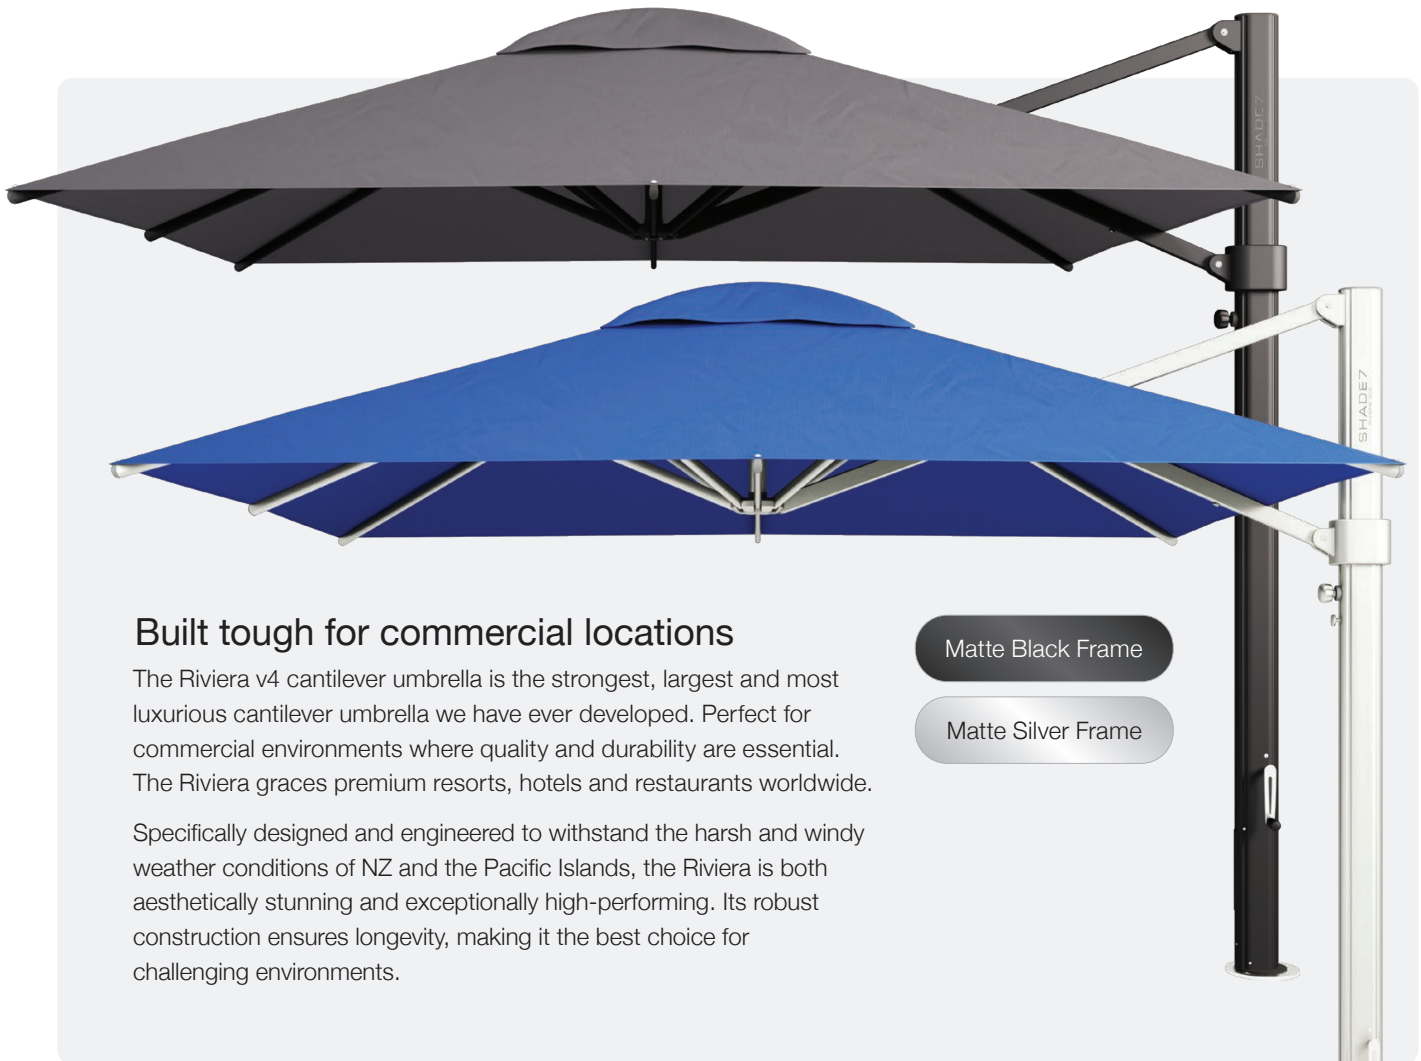

- NZ developed & designed
- Superior strength and ability to withstand wind
- Marine-grade 20 micron anodised aluminium frame
- Available in two frame colours; matte silver and matte black
- 5 year residential back-to-base warranty on the frame*
- European made acrylic canvas fabric with 10 year warranty*
- 22 canopy colour options
- Full 360 degree rotation with 24 locking locations
- Unlimited tilt adjustment for maximum flexibility

*3yr warranty for commercial use

*5yr warranty for commercial use

Built tough for commercial locations

The Riviera v4 cantilever umbrella is the strongest, largest and most luxurious cantilever umbrella we have ever developed. Perfect for commercial environments where quality and durability are essential. The Riviera graces premium resorts, hotels and restaurants worldwide.

Specifically designed and engineered to withstand the harsh and windy weather conditions of NZ and the Pacific Islands, the Riviera is both aesthetically stunning and exceptionally high-performing. Its robust construction ensures longevity, making it the best choice for challenging environments.

Matte Black Frame

Matte Silver Frame

Riviera features

Strength & beauty + quality components

Strong and stylish anodised aluminium mast, arms, components, and trim, complete with a beautiful polished stainless steel winder handle and installation fittings.

Generous canopy tilt adjustment

The infinite tilt function ensures protection even against low-angling sun. Install the Riviera with its back to the early or late sun, slide the canopy down and enjoy full use of your outdoor space.

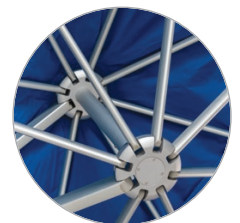

360° rotation for all day shade

360° rotation and 24 locking positions enable you to rotate the umbrella to provide shade and UV protection as the sun moves throughout the day.

Made to last - premium marine grade materials

The combination of 20 micron anodised aluminium and 316 stainless steel make this umbrella incredibly strong, durable and long lasting. This is NZ's best quality tilting cantilever.

Wind rated up to 60kph

Premium engineering and construction. Built by Kiwis for NZ coastal conditions, the Riviera will give you quality shade and enhance your outdoor living experience for many years.

Optional accessories

Canopy stabiliser kit - silver/black

Uniquely designed stabiliser arms that increase the umbrella's stability for commercial environments and exposed locations.

Cover bag - black/charcoal/off white

Highly recommended and easy to use. Will double the life of your umbrella fabric.

Designer finial

Create a French Riviera design flair with a polished stainless steel finial.

Clip-on LED smart light

USB rechargeable LED light with motion and light sensors. Great for night-time entertaining.

Installation options

Your Riviera umbrella comes to you fully assembled. There are three different installation options. You can install your Riviera onto a wooden/composite deck, a concrete patio or install into the ground using an in-ground kit. Or you can choose to install with our Freestanding Cantilever Base with Internal Wheels, or the Freestanding Half Base.

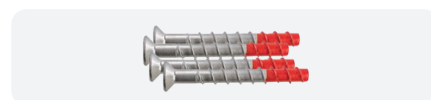

In-ground installation fitting

For installation into a patio or the ground.

Deck installation kit

Set of bolts required for deck installation. *(A base plate will be required for composite decks or the large 4.5m octagonal Riviera size).*

Concrete patio installation kit

Set of concrete screws required for installation. *(A base plate will be required for the large 4.5m Octagonal Riviera size).*

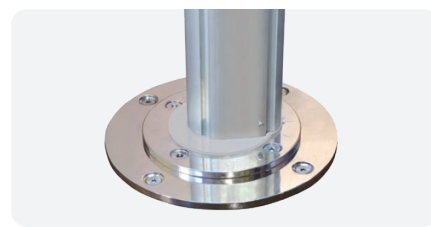

Freestanding cantilever base with internal wheels - silver/black

A strong, durable cantilever umbrella freestanding base with hidden internal wheels and adjustable locking feet. Weighs up to 180kg when fully loaded with gravel.

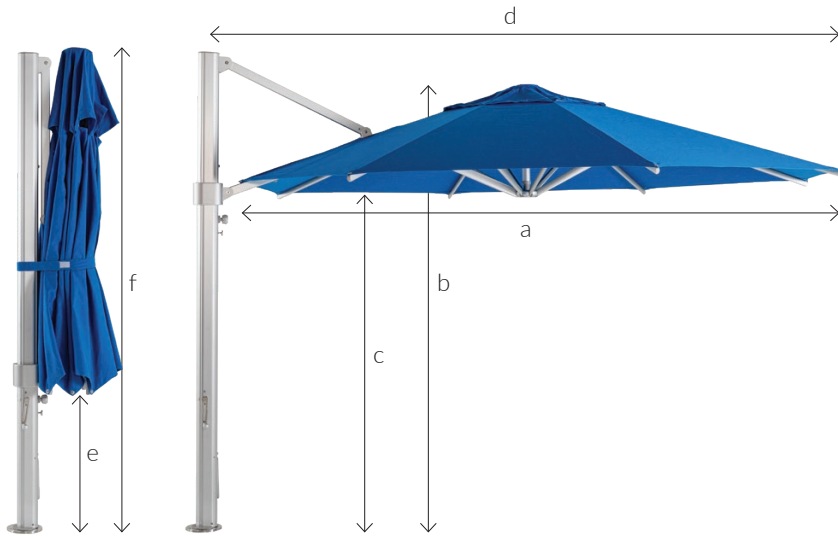

Freestanding half base

This clever freestanding base design provides more usable space under the umbrella. Weighs 230kg once filled with 8 x 50x50cm pavers. NZ pat app no. 768055

Stainless steel base plate

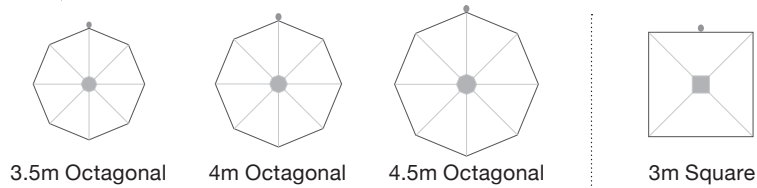

An optional base plate increases the strength of an umbrella installation and makes it easy to remove. *(A base plate is required for installation on any composite deck or when installing a 4.5m Octagonal Riviera to any wooden deck or concrete patio).*

European made acrylic canvas

Our premium solution-dyed acrylic canvas comes with a 10 year warranty and has the best available colour fastness rating of 7-8 out of 8⁴. It also has the highest possible rating of UPF 80, cutting out the maximum amount of harmful UV light for excellent sun protection.

Specifications & technical information

Dimensions of open umbrella				
a: Width of canopy (cm)	1350 ^Ø	1400 ^Ø	1450 ^Ø	300x300
b: Height to top of umbrella (cm)	270	270	270	285
